

Technical Specs for Mix Turnover

1. [Video Reference](#)
2. [Track Layout](#)
3. [Avid Media Composer AAF Export](#)
4. [Adobe Premiere Pro AAF Export](#)

Video Reference

- Please deliver your video reference file with **visible burn-in timecode**.
- We prefer either of the following formats:

Apple ProRes Proxy

OR

Avid DNxHD/HR

(Please use DNx36/45/LB/SQ formats as applicable to the framerate, 8-bit encoding)

note: H.264/5 files cannot be confirmed to be frame-accurate and as a result, may present sync issues in the mix session timeline.

Track Layout

Track layout in your delivered AAF/OMF should follow the layout below as closely as possible:

- Top Track(s) - Voiceover/Narration
- Talking Heads/Sit-down Interviews (if applicable)
- Primary dialog, split out by character as much as possible
- B-Roll/Nat Sound
- Added SFX & Sound Design
- Bottom Tracks - Music

Please separate mono clips and multichannel audio clips onto separate audio tracks
